Fine Art Quilts by Caryl Bryer Fallert-Gentry

## BIOGRAPHY

Caryl Bryer Fallert-Gentry is internationally recognized for her

award winning fine art quilts. She is best known for her organic, curved seam designs, her scintillating use of color, and her multilevel

illusions of light and motion. Her attention to detail has earned her a reputation for fine craftsmanship as well as stunning designs. Honors include: 100 Most Important Quilts of the Twentieth Century (2000), 30 Most Influential Quiltmakers in the World (2002), Bernina Quilt Leadership Award (2003), All American Quilter (2004) and International Quilt Festival Silver Star (lifetime achievement) Award (2006).

Since 1983, Caryl's work has been exhibited extensively throughout North America, Europe, Japan, and the Pacific Rim. She has had twenty-three solo exhibitions, including a 1992 exhibition in Tokyo, Japan, and a 2000 exhibition in Burlington, Ontario, Canada.

Caryl has won Best of Show at the International Quilt Festival (2009) and the American Quilters Society Show (1989, 1995, and 2000). Her quilts

have also won Best of Show in more than a dozen other national and international exhibitions. In 1986, Caryl received the Masterpiece Quilt Award from the National Quilting

Association. She has received Master Awards for both Contemporary Artistry (2002 & 2006) and Machine Artistry (1997) from the International Quilt Association, and machine workmanship awards from both the American Quilters Society (2004 & 2009) and the Quilting the Quilt national exhibition (2003).

Caryl has authored two books, numerous instructional brochures, and ten workshops on CD-ROM. Her work has appeared in hundreds of national and international publications, including the covers of the 1987 and 1991 Quilt National Catalogs.

Caryl's work can be found in public, museum, corporate, and private collections in twenty-two states and seven foreign countries. Collections include: The Museum of Art and Design (NY), National Quilt Museum, Visions Art Museum, Rocky Mountain Quilt Museum, Illinois State Museum, International Quilt Study Center, Wilmette (IL) Public

Library, Bradley University Library, Glendale (CA) Civic Center, Fidelity Investments Inc., Sprint, and Fritz Gegauf A.G. (Switzerland). In addition to her commission work, Caryl reserves time to create a body of very personal, experimental quilts.

Born in 1947 in Elgin, Illinois, Caryl graduated with a BA from Wheaton College in 1969. She also studied art at Illinois State University, College of DuPage, and University of Wisconsin.

Caryl was a lifelong resident of Northern Illinois, until 2005, when she moved to Paducah, Kentucky, where she built and operated

the Bryerpatch Studio gallery, and workshop center in the historic Lower Town Arts District until 2014. In 2013, Caryl married Dr. Ron Gentry, and in 2014, she and Ron relocated to Port Townsend, Washington, where she continues working as a full time artist in her new studio overlooking Puget Sound.

Caryl has lectured and conducted workshops for quilt and textile arts groups throughout the United States, and in eleven foreign countries on five continents. She continues to share her knowledge through her publications, workshops on CD, and her website.

Much more information about Caryl, including contact information, is available on her website at:

## ARTIST'S STATEMENT

For as long as I can remember, I have expressed myself through artwork. My formal training was primarily in design, drawing, and studio painting. After many years of painting, sewing, and experimenting with other media, I discovered that fabric, as used as a fine art medium, best expressed my personal vision. Since 1982, I have been a quilt maker, i.e., my work is constructed from layers of fabric, stitched together with batting or other filler between the layers. I love the tactile qualities of cloth, and the unlimited color range made possible by hand dyeing and other surface design techniques. My quilts begin with white, 100% cotton fabric. The fabric is dyed, painted and printed to create the palette of colors and visual texture used in piecing and appliquéing my images.

Textures, created by layering, pleating, embroidering, and quilting, invite the viewer to touch, as well as look.

In addition to my ongoing series of colorful fantasy works, I am also making a series of quilts from images scanned and manipulated in the computer and printed directly on fabric with archival ink jet inks.

The focus of my work is on the qualities of color, line, and texture, which will engage the spirit and emotions of the viewer, evoking a sense of mystery, excitement, or joy.

Illusions of movement, depth, and luminosity are common to most of my work. The inner glow is created by hand dyeing or painting my fabrics in gradual progressions from light to dark.

Both my geometric color studies, and my more organic, curved seam abstracts are inspired by visual impressions, collected in my travels, in my everyday life, and in my imagination. Although some of my quilts include pictorial images, my work is most often about seeing, experiencing, and imagining, rather than pictorial representation of any specific object or species. My intention is to focus on positive energy and depict that in my work.

I intend for my quilts to be seen and enjoyed by others. It is my hope that they will lift the spirits and delight the eyes of those who see them.

I am constantly learning, as I find new images in my imagination and develop the techniques to create them in cloth. As a teacher I believe that the magic of art lies in our heads and in our hearts. I love sharing my techniques with others so they can share their magic with me.

# COLLECTIONS

## Museum Collections

- Illinois State Museum, Springfield, IL
- International Quilt Study Center Museum, University of Nebraska, Lincoln, NE
- Museum of Art & Design, New York, NY
- National Quilt Museum, Paducah, KY
- Rocky Mountain Quilt Museum. Golden, CO
