These are NOT Your Grandmother's Quilts by Caryl Bryer Fallert-Gentry

This light-hearted, fast-paced lecture is designed for people of all ages from 6-90 who may never before have seen an art quilt. I'll introduce you to the use of the quilt as an art medium and show dozens of examples covering a wide range of styles from traditional to outrageous. I will also share a little about my personal processes, techniques, and history, to help you understand and enjoy the work in this show.
