Design Concept & Process:

The patterns in this quilt were inspired by microscopic photos of natural objects showing repeat patterns at the cellular level. The design began with simple curved shapes in muted fabric from my "Gradations" collection from Benartex, separated by slices of light green patterned fabric from my "Multi-Tye-Dye" collection. The petal-like feathers were cut from lighter brighter "Gradations" fabrics. The quilting extends beyond the shapes in hair-like patterns.
