Design Concept & Process:

Transparency is the personality trait of **being genuine, open, and honest in one's thoughts, feelings, and actions**. This term can trace its roots back to the Latin word 'transparens,' meaning to show oneself clearly. In personal relationships and professional scenarios, transparency helps in fostering trust and strong connections.

This quilt is a visual expression of a philosophical concept. The design began in Corel Draw, with a series of checks, which I filled with a gradation from red to white to blue. A photo of one of my original hand painted fabrics was placed in the background. I erased the background from a recent portrait and used a transparency tool to apply a gradient of varying

opacity. This was centered over the multicolored checks creating a shadowy image.

With variegated thread, I quilted along the edges of the checks. The backing fabric is from my *ColorFlow* collection for Benartex.
