

Bryerpatch Studio

Fine Art Quilts by Caryl Bryer Fallert-Gentry

BIOGRAPHY

Caryl Bryer Fallert-Gentry made her very first quilt in 1976, never imagining that it would lead to a life-long career in the textile arts. Today, she is internationally recognized for her award-winning fine art quilts, best known for their organic, curved seam designs, scintillating use of color, and illusions of light, depth, and motion. Her attention to detail has earned her a reputation for fine craftsmanship as well as stunning designs.

Since 1983, Caryl's work has been exhibited extensively throughout North America, Europe, Japan, Brazil, and the Pacific Rim. She has had twenty-three solo exhibitions, including shows in Canada and Japan. Caryl has won Best of Show at the

International Quilt Festival (2009), the American Quilters Society Show (1989, 1995, 2000), and more than a dozen other national and international

competitions. In 1986, Caryl received the Masterpiece Quilt Award from the National Quilting Association. She has received Master Awards for both Contemporary Artistry (2002 & 2006) and Machine Artistry (1997) from the International Quilt Association, and

machine workmanship awards from both the American Quilters Society (2004 & 2009) and the Quilting the Quilt national exhibition (2003). Special honors include: 100 Most Important Quilts of the Twentieth Century (2000), 30 Most Influential Quiltmakers in the World (2002), Bernina Leadership Award (2003), All American Quilter (2004) and International Quilt Festival Silver Star (lifetime achievement) Award (2006). Caryl's work can be found in public, museum, corporate, and private

collections throughout the United States and in seven foreign countries.

Caryl has authored two books, plus numerous articles, instructional brochures, and digital workshops. Her work has appeared in hundreds of national and international publications, including the covers of the 1987 and 1991 Quilt National Catalogs.

For thirty years, Caryl traveled extensively, lecturing and conducting workshops throughout the United State, and in eleven foreign countries on five continents. She continues to share her knowledge through her website where many of her

publications are available as free downloads. (www.bryerpatch.com).

Born in 1947 in Elgin, Illinois, Caryl graduated with a BA from Wheaton College in 1969. She also studied art at Illinois State University, College of DuPage, and University of Wisconsin. Caryl was a lifelong resident of Northern Illinois until 2005, when she relocated to the historic LowerTown Arts District of Paducah, KY where she built a studio, gallery, and workshops center which was open from 2006-2014.

In 2013, Caryl married Dr. Ron Gentry and in 2014, she sold her Paducah studio, retired from teaching and retail, and relocated to Port Townsend where she continues to create new work in her latest studio overlooking Puget Sound and the snow-capped Cascades.

Much more information about Caryl, including contact information, is available on her website at: www.bryerpatch.com

ARTIST'S STATEMENT

For as long as I can remember, I have expressed myself through artwork. My formal training was primarily in design, drawing, and studio painting. After many years of painting, sewing, and experimenting with other media, I discovered that fabric, as used as a fine art medium, best expressed my personal vision. Since 1982, I have been a quilt maker, i.e., my work is constructed from layers of fabric, stitched together with batting or other filler between the layers. I love the tactile qualities of cloth, and the unlimited color range made possible by various surface design techniques. My quilts begin with white, 100% cotton fabric. The fabric is dyed, painted, and printed to create the palette of colors and visual texture used in piecing and appliquéing my images.

Textures, created by layering, pleating, embroidering, and quilting, invite the viewer to touch, as well as look.

In addition to my ongoing series of colorful fantasy works, I am also making a series of quilts from photos and images designed in the computer and printed directly on fabric.

The focus of my work is on the qualities of color, line, and texture, which will engage the spirit and emotions of the viewer, evoking a sense of mystery, excitement, or joy.

Illusions of movement, depth, and luminosity are common to most of my work. The inner glow is created by hand dyeing or painting my fabrics in gradual progressions from light to dark.

Both my geometric color studies, and my more organic, curved seam abstracts are inspired by visual impressions, collected in my travels, in my everyday life, and in my imagination. Although some of my quilts include pictorial images, my work is most often about seeing, experiencing, and imagining, rather than pictorial representation of any specific object or species. My intention is to focus on positive energy and depict that in my work.

I intend for my quilts to be seen and enjoyed by others. It is my hope that they will lift the spirits and delight the eyes of those who see them.

I am constantly learning, as I find new images in my imagination and develop the techniques to create them in cloth. As a teacher I believe that the magic of art lies in our heads and in our hearts. I love sharing my techniques with others so they can share their magic with me.

COLLECTIONS
